Manuscript Number: TCS-D-21-00882  
Manuscript Title: On the Complexity of Singly Connected Vertex Deletion  
Author(s): Avinandan Das; Lawqueen Kanesh; Jayakrishnan Madathil; Komal Muluk; Nidhi Purohit; Saket Saurabh  
Article Type: Regular Paper (10 - 40 pages)  
Submitted to: Theoretical Computer Science

Dear Dr. Chuang-Chieh Lin,

The above manuscript has been submitted for publication in Theoretical Computer Science. I would be very grateful if you could accept to act as a reviewer.

To view the manuscript, please click on the following link:  
<https://www.editorialmanager.com/tcs/l.asp?i=406365&l=5WD7KZC1>

You know as an author how important it is to get quick and high-quality feedback. Having this in mind, please let me know as soon as possible if you accept this invitation and especially if not, so that I can look for other reviewers. I would normally allow 90 days for this review, but I can customize the deadline to fit your constraints if you contact me.

In case you accept to act as a reviewer, please register this in the Editorial Manager at the following link:  
<https://www.editorialmanager.com/tcs/l.asp?i=406366&l=LDWK3DUU>

If you decide that you are unable to act as a reviewer for the manuscript, I would be very grateful if you could suggest the names and email addresses of appropriate alternatives. To this end, please click on the link below:  
<https://www.editorialmanager.com/tcs/l.asp?i=406367&l=HFNAPSCX>

If you need any type of assistance, for example on entering your decision, using EM or getting an extension of the time for your review, please contact the TCS Managing Editor, who would be very happy to help, at [tcseditorialoffice@elsevier.com](mailto:tcseditorialoffice@elsevier.com).

Thank you in advance for your time and effort!

As a reviewer you are entitled to complimentary access to references, abstracts, and full-text articles on ScienceDirect and Scopus for 30 days. Full details on how to claim your access via Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)) will be provided upon your acceptance of this invitation to review.

Please visit the Elsevier Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)) to manage all your refereeing activities for this and other Elsevier journals on Editorial Manager.

Kind regards,

Ralf Klasing  
Editor  
Theoretical Computer Science

Please also note that authors have been invited to convert their supplementary material into a Data in Brief article (a data description article). You may notice this change alongside the revised manuscript. You do not need to review this but may need to look at the files in order to confirm that any supporting information you requested is present there.
